YMS Uniko Manufacturing has been a trusted name in the signage and display industry for nearly 50 years. Our commitment to quality and competitive pricing has positioned us as a leading manufacturer, specializing in light boxes, LED display solutions, transit shelters, and more.

We focus on manufacturing and wholesaling a unique mix of high-quality products and services that instill confidence in every sale. Our innovative solutions help clients—and their customers—save time and money while enhancing visibility and impact.

At YMS Uniko Manufacturing, we believe our team is our greatest asset. Their dedication, creativity, and passion drive our success, allowing us to push boundaries and set new industry standards. More than just employees, they are part of a family—sharing talents, challenges, and achievements in a supportive and collaborative environment. Their relentless pursuit of excellence continues to shape our growth, helping us deliver outstanding products and service to our valued customers.

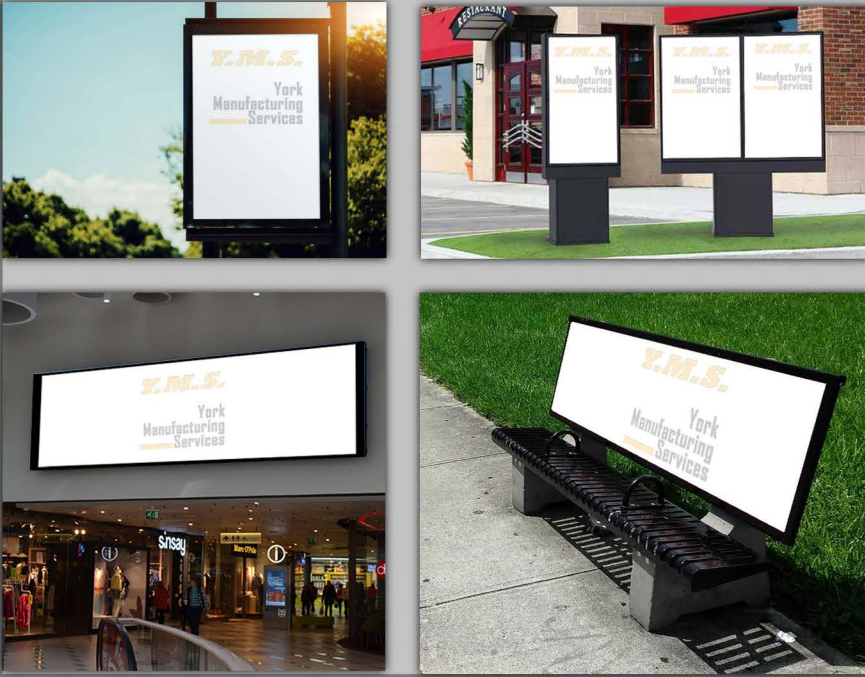

Who We Are

Products

Dura Brite / Transit Shelter Boxes

Premium Aluminum Light Boxes

Our heavy-duty aluminum light boxes are designed for superior illuminated advertising, perfect for both indoor and outdoor applications. Built with all-aluminum extruded construction, they feature secure, lockable doors, clear acrylic windows, and translucent acrylic diffusers to ensure bright, even lighting. Available in sleek black, these light boxes come in single-sided wall-mounted designs or double-sided bus shelter-style cabinets.

Uniko, a leading manufacturer of outdoor illuminated signs, offers a full range of custom sizes to fit your specific needs. The split magnetic hinge allows for quick and easy graphics changes, preventing wrinkling and light leakage, while reducing vandalism and service requirements.

Ideal for:

- Bus shelters
- Triangle displays
- Advertising benches
- Indoor store displays
- Illuminated billboards
- Street poles
- Menu displays (drive-thru, in-store, malls, etc.)
-

Use them for anything your imagination can create!

Transit Shelter

Built with the same premium aluminum extrusion as our Dura Brite series, these light boxes are designed for transit shelter boxes and outdoor advertising. Available in LED or non-illuminated versions, they feature lockable doors, clear acrylic windows, and translucent diffusers for bright, even lighting.

Choose from:

Single-sided (4") or

Double-sided (8") formats.

Custom Made

LED Light Boxes

Square LED Light Boxes

24" Black Frame (21.5" Graphic Size)

Make your message shine—day or night. This double-sided square LED light box features brilliant illumination and a sleek black finish, making it perfect for both indoor and outdoor displays. Built to withstand the elements, it's fully waterproof and durable, while the included mounting brackets make installation a breeze. Showcase your graphics in style with high visibility and lasting impact.

Clip-In Frame Light Box

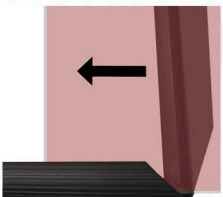

- Single sided 5.5" deep only.
- Security screw feature where necessary.
- Indoor or Outdoor Application.

The Clip-in illuminated light box features an innovative aluminum extrusion design, allowing for the construction of custom-sized, single-sided boxes. These illuminated signs are tailored to meet your advertising needs. Custom light boxes can be ordered in either black painted or clear satin anodized finishes. Designed for use with signs, transparencies, and more, the Clip-in box provides smooth, even illumination for your selected media. Simply add your graphics and slide the insert in.

Insert can be loaded from any side

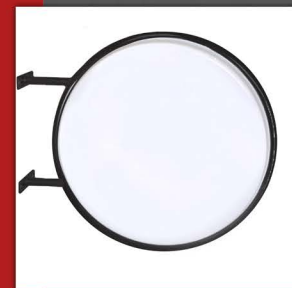

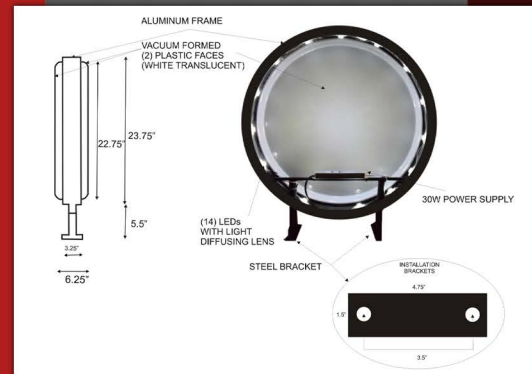

Circular LED Light Boxes

Circular LED Light Box Promote your business from afar with our durable round light box—limitless design options, built to last. Includes mounting bracket.

- Single-Sided:
Two back slots for easy hanging
- Double-Sided:
Side brackets for secure mounting

Sizes:

24" (21.5" graphic) and 30" (29" graphic)

Snap Frames

Illuminated Snap Frames

Make your signage stand out with Uniko's Snap Frame LED Light Boxes—bright, evenly lit, and easy to use. The spring-loaded snap design lets you switch graphics in seconds. Available in black or silver aluminum, and custom-built up to 4' x 8'.

Non-Illuminated Snap Frames

Need a non-illuminated option? Uniko Snap Frames are sleek, durable, and simple to use. Just clip open, insert your poster, and snap it shut. Multiple sizes available, plus volume discounts on bulk orders. Custom sizing is no problem—we've got that covered too.

Products

Custom Made Cabinets

Hinged Door Sign Cabinets

Hinged Door Design Cabinets, Single and Double Sides

Single sided 8"

Double sided 10" / 16"

LED-lit or non-lit options, popular with acrylic faces.

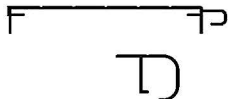

A Premier Choice for Sturdy Outdoor Signage

Our exterior illuminated cabinet is an ideal solution for businesses seeking durable and reliable outdoor signage. Crafted from extruded aluminum, this robust cabinet offers exceptional outdoor performance. The solid, one-piece outer frame can accommodate signage substrates up to 1/4" thick and features a hinged design for easy maintenance and graphic exchanges.

Available exclusively in a sleek black finish, our outdoor cabinets enhance any commercial, retail, or industrial environment. They provide a high-quality, polished appearance while illuminating your chosen media with smooth, bright, and even light. Each unit is fully constructed and assembled to your specifications, ready for graphic application and installation. Plastic faces are available upon request.

Lock a Graphic Non-Illuminated

Custom-built to your required dimensions, the Lock-a-Graphic combines style, strength, and functionality in a premium silver or black aluminum frame, enhancing both durability and display versatility.

• Durable & Self-Healing Cork

Eco-friendly natural cork holds items securely with push pins and naturally re-closes after pin removal—extending board life and keeping your display neat. Also available with a steel backing, recommended for outdoor applications.

• Enclosed & Secure Display

A clear acrylic door provides easy visibility while protecting contents. Keyed locks and acrylic panels offer security from tampering and unauthorized access.

• Versatile Use Across Environments

Perfect for pinning notes, memos, menus, calendars, or images in offices, homes, retail, and public spaces. A sleek solution for keeping your message clear, organized, and protected.

Designed for both
vertical and
horizontal
installation.

A - Frames

Rugged Design. Versatile Display.

Our metal A-Frames are engineered to endure harsh outdoor conditions—resisting wind, rain, and the wear of daily use.

Featuring top-loading or side-loading options, these frames ensure quick poster changes while maintaining stability and durability.

We offer a wide range of sign holders designed to meet all your signage needs with strength and reliability in every frame.

Product Features

- Constructed from steel with a sleek black powder-coated finish
- Designed for use with multiple insert materials: ACM, plywood, Masonite, aluminum, coroplast, plastics, and more
- Suitable for both vertical and horizontal display formats
- Easy maintenance—paint, print, or apply vinyl graphics directly to your insert

These display solutions are perfect for businesses, events, and outdoor environments where longevity and clarity matter most.

More Sign Holder Solutions

Two Post Frame Sign Holders

Available in single-piece and two-part constructions.

- Single-piece frames in multiple display sizes (48" height)
- Two-part frames for ground installation with tapered legs (60" height)
- Double-sided display
- Durable steel construction
- Inserts sold separately

Floor Stands

Durable metal floor stands designed to hold 22" x 28" graphic inserts. Choose between a **60" black-finish** model for a sleek, budget-friendly option, or a **66" chrome** stand with a stable round base and optional basket for added versatility.

Wind Screamer (W-203)

Double-Sided Outdoor Sign

Built for visibility and durability, the Wind Screamer features a snap frame front for quick graphic changes and a fillable base for rock-solid stability using water, sand, or gravel. Ideal for: Gas Stations, Garages, Parking Lots, Convenience Stores, Car Washes, Restaurants, Storefronts & More.

POSH-203

Portable Outdoor Sign Holder
Heavy-duty black metal base designed to hold rigid sign materials. Compatible with 3mm aluminum composite panels (sold separately). Fast, easy setup, built to last in outdoor environments.

Step-Stake

Effortlessly display real estate and campaign yard signs. Made with galvanized 9-gauge steel wire, these stakes firmly anchor your signs to the ground. They slide in effortlessly, even in cold weather. For use with Plastic Corrugated Pads (sold separately). Medium Duty. 10"x30", 50 pieces per case.

X-Banner

Benefits of the X-Banner:

- **Quick Setup:** The X-banner can be set up in just a few minutes.
- **Portable:** It's lightweight, flexible, and can be folded to fit into a carrying bag.
- **Cost-Effective:** The X-banner is reusable and competitively priced. Its popularity is growing thanks to its functionality, portability, and clear graphic display.

Wall Mount Bracket (WMB)

An elegant shaped hanging bracket and sign, ideal for any house, farm or business.

Wind Spinner (W-1836)

Durable metal construction with an insert size of 18" x 30"—built to catch attention and withstand the elements.

WBN

Freestanding, double-sided poster holder, perfect for restaurants and retail. Wind-resistant with a fillable base for added stability in any weather. Weighs just 4 lbs. empty, 40 lbs. with water. Graphic panel sold separately.

Crane Sign Holder

Two Part Metal Crane Sign Holder is made of steel, powder coated black color, with a two part construction for easy handling and installation. Top arm contains holes for easy hanging applications. Has a total height of 60 in. Weight of approximately 5 Lbs. Display area: 24" x 40" / 36" x 40"

Easel

Adjustable Easel (AAE 2260)
This lightweight silver easel adjusts from 22" to 60" in height and 18" to 36" in width, weighing just 2.6 lbs for easy portability. Ideal for retail signage, trade shows, presentations, or any setting where flexible display is key.

Roll-up Banner Stand (RBS 3178)

A reliable choice for on-the-go displays. This retractable banner stand features adjustable height, smooth retraction, and sturdy construction, perfect for trade shows, retail, or presentations.

More Display Solutions to Suit Every Need

Beyond A-Frames, we offer a versatile selection of sign holders and display stands, built for indoor and outdoor use, and tailored to suit a wide range of signage formats. From floor stands and poster holders to wall brackets, wind-resistant bases, easels, and banner displays, each item is designed with durability, ease of use, and visual impact in mind. Explore the options below to find the right fit for your next project.

Display Materials Available

Aluminum Coil for Channel Letters

Aluminum sheets (white, colored, anodized) can be cut to strips for channel letter coil use.

Durable, lightweight, and weather-resistant 8mm white sheets, for indoor or outdoor signage. Sold in 5-packs of 4'x8' sheets.

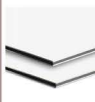

Steel Sheets

Available in 48" x 96" and 48" x 120" (16 gauge / 0.064"). Custom cut-to-size blanks available.

Aluminum Sheet Options

Stocked in 48" x 96" and 48" x 120"; other sizes available. Finishes: White, Colored, Anodized, and Alodined. Select gloss/matte.

Steel Composite Panel

3mm thick, 4'x8' sheet with magnet-ready print side and dry-erase back. Custom cuts available.

Aluminum Composite Material (ACM)

PVC-coated for added protection. Low cost, lightweight, high strength, and excellent durability in outdoor conditions.

Aluminum Blanks

Colored, coated, and cut to standard or custom sizes, with PVC protection. Shapes available by request. 3M Certified quality.

Aluminum Street Name Blanks

Double-sided, made to spec in 6.25" or 8" widths, up to 144" long. Bare or laminated with reflective sheeting.

Acrylic Sheets

2MM-24MM thickness, various sizes and finishes, transparent, solid, or matte. Tough, versatile, and project-ready.

Support Systems for Every Sign

Sign Posts for Every Installation

- **Telescoping Posts:** Square tube design with full-length holes. Compatible with 3' base sleeves for adjustable height.
- **Delineator Steel Posts:** Galvanized 8' posts with 24-hole pattern. Lightweight at 1.12 lbs./ft.
- **U-Channel Posts:** Hot-dipped galvanized to MTO standards. Full-length holes (2" centers), 2.03 lbs./ft. Includes all mounting hardware.
- **Mini Square Posts:** Compact 1" x 1" x 8' option with no holes, perfect for lightweight or temporary signage.

Sign Hardware Solutions

Everything you need to complete your sign installations, brackets, bolts, bases, and more. Our sign hardware is built for durability, compatibility, and ease of installation, whether you're mounting to walls, posts, or ground sleeves. From roadside setups to in-store displays, we offer trusted components that keep your signs secure and standing strong.

Sign Bases for Permanent & Temporary Installations

Ensure rock-solid support with our range of durable sign bases—engineered for fast installation, long-term strength, and compatibility with square or U-channel posts.

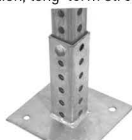

E-Z Post Base:

Portable and fillable base (up to 60 lbs full) for temporary square post signage. Compatible with signs up to 36"x48". Orange, black, and gray.

U-Channel Post Base (UPB-G):

8"x8" galvanized base with raised neck support, designed for easy surface mounting without coring. Supports posts up to 12' tall.

Telescoping Post Base (TPB-G):

8"x8" galvanized steel plate for square posts. Corrosion-resistant, easy to install, and ideal for commercial or residential use.

Custom Metal Signs Built to Last

For over 50 years, we've crafted durable signage tailored to your exact needs. From parking and regulation signs to warning and traffic control signage, we deliver reliable solutions that stand the test of time.

We offer signs in aluminum, steel, and aluminum composite materials, printed and cut to your specifications using one of two methods:

- **Silk Screen Printing** – A hand-applied process using long-lasting, high-quality inks, with reflective or non-reflective options and up to 7 years of durability.
- **Digital Printing** – A flexible solution for detailed, full-color designs and faster turnarounds.

And we don't stop at printing—we carry all the hardware, posts, and bases you need to complete your signage installation with ease and confidence. Whether you're outfitting a single site or managing large-scale signage needs, we provide expert finishing, lasting quality, and materials built for performance.

Let us know what you're looking for—we're ready to help.
